TOURNAMENT DETAILS

The idea behind the tournament design is to offer all participating teams as many competitive matches as possible, so the tournament is divided into preliminary rounds, a qualification round and a playoffs.

All teams are divided into groups of 4 - in some cases 5- the top two teams move on to qualification round A, while the 2 (or 3) teams placed last move on to qualification round B. In the qualification round, the teams are once again split into groups; The top teams then move on to the play-offs.
