See inside for details about getting around, sightseeing, shopping, nightlife and more

About Lloret de Mar

Lloret de Mar is one of the biggest and liveliest resorts on the Costa Brava. This is the Costa Brava's answer to tourist resorts such as Benidorm on the Costa Blanca and Torremolinos on the Costa del Sol.

Lloret de Mar has an abundance of clubs, bars and discotheques open pretty much 24 hours – well almost!

Many families also enjoy this family friendly tourist resort due to the fabulous beaches and plentiful facilities. Lloret de Mar boasts over four miles of coastline – not just sandy beaches, there are also some nice coves in which you can generally escape the crowds on the main beaches.

They range in size from 4 to 7 people and there are also taxi's suitable for disabled people.

You can recognise an official taxi as they are white with a signal identification.

Coast Walks - The best way to take in the essence of Lloret de Mar is enjoying its multiple walking routes that go all along the coast line or that go into the woods, opening to the visitor every secret of the mediterranean flora and fauna.

Parish Church of Sant Romà - Whenever visitors to Lloret wander the streets of the town centre, they are struck by the dazzling beauty of Sant Romà's Parish Church, a building which has become one of Lloret's landmarks. The church was built from 1509 to 1522. It had fortification features, e.g. a raising door, and it also had a single nave. During the rest of the 16th and throughout the 17th century, other rooms have been built on, above all, side chapels, as deduced from the information there is about several altars and altarpieces.

Sant Joan's Castle - The castle is situated at the top of the hill which separates the beaches of Lloret de Mar and Fenals and dates back to the beginning of the 11th century, possibly from the age of Lady Sicardis and her sons, the Lords of Lloret (1041-1110), when it controlled the feudal territory of Lloret.

The war that England fought against Spain and France and which ended with the Battle of Trafalgar also had a disastrous effect on the tower of Sant Joan Castle. In 1805, the British Navy bombarded the tower, which destroyed the fortified site. The castle remained in disuse during the 19th century and was reduced to a pile of rubble.
